UFO CRASH/RETRIEVALS: THE INNER SANCTUM

STATUS REPORT VI

By Leonard H. Stringfield

THE CURTAIN RISES ON THE INNER SECRET A LITTLE.....

BOOK REVIEW ON LEONARD STRINGFIELD'S RECENT REPORT ON:

U.F.O. CRASH RETRIEVALS !!!

THIS ISSUE CONTAINS:

MEMBERSHIP CORNER, U.F.O.'S IN THE NEWS, LIUFON NEWS, THE NATIONAL AND INTERNATIONAL U.F.O. REVIEW AND THE LONG ISLAND SCENE .

PLUS

A SPECIAL ORDER FORM FOR LEONARD STRINGFIELD'S PUBLICATIONS.

THE LONG ISLAND U.F.O. NETWORK INC.

P.O. BOX 1692

RIVERHEAD, NEW YORK, 11901

HOTLINE: (516) 286-3212

[illegible]

*****As you will read in the next section, Richard Stout has tendered again his resignation owing to continuing health problems and family concerns. Richard had decided to stay on for the balance of the past year after offering his resignation in the fall of 1990. This, however, was too much for Richard and his continuing health concerns which grew this past year with the decision to step down and remove himself from the Board of Directors. On January 12, 1992, the yearly meeting of the Board was held and his resignation was tendered to the Board. In his place, Director of Investigations, Frank Columbo was elected as the new First Vice Chairman of the organization.

***** A new Director of Investigations will shortly be selected within the next month when LIUFON sets up its schedule for the coming year for new investigations. ***** Also at the meeting a motion was entertained and voted on to elect Dick Ruhl as a permanent voting member of the Board of Directors which was acted on and accepted. ***** Dick was unanimously accepted and now is a permanent member of the Board. ***** Congratulations, Dick. ***** LIUFON has a chapter forming in Florida, which is headed by Kelly Freeman. Kelly is asking any member who has friends or relatives in the Sunshine State to contact him for possible membership or to report UFO activity at the following address: The Florida U.F.O. Network (LIUFON), P.O. Box 7567, Tallahassee, Florida, 32314-7567. If you need to call, you may contact him at 904-875-2013. ***** Members, if you have family or friends wishing to help form a chapter in that state, please contact Kelly and help give him a hand. ***** LIUFON may be forming a chapter in Connecticut within the next couple of months. Leola Sutton, LIUFON Investigator, has relocated to that state recently and has asked to be considered for a charter for the state of Connecticut. As of this issue of the newsletter Leola is considering accepting the position. Those members in Connecticut may soon have their own chapter soon. ***** LIUFON Chairman John Ford was severely ill over the holidays with a severe case of the flu which almost developed into pneumonia. John is still recovering, but owing to his illness, the next installment of the Moriches Bay Incident will not be out until February. Please excuse the delay. ***** Members wishing the full complete report, please contact the Network and mail a check for \$5.00 for shipping and handling. ***** During December, LIUFON Chairman John Ford was able to give several telephone interviews to radio stations in Ottawa, Montreal and British Columbia which ran the Moriches Bay Incident story and other information on U.F.O. abductions. ***** April 12, 1992 at 2:30 P.M. until 4:30 P.M., LIUFON will be presenting a slide lecture at the Indian Museum in Southold. Further information will be available to members who wish to attend by calling the Hotline. ***** LIUFON is arranging to set up new speaking engagements throughout the area in the coming months, please watch the newsletter for further information as to time and place. ***** The total number of cases reported to LIUFON for the year of 1991 were some seventy cases reported for investigation. For the first time in the four year history of the Network, the total indicates a substantial number of abduction occurrences and strange phenomena reports. The number of actual sightings were also very significant, especially with the rash of sightings of blimp or cigar type objects this past summer coupled with classic dome shaped objects or unusually shaped objects. In all 1991 was a busy year. ***** Plans for a conference are being made for October 1992. Please watch for developments in future issues of the newsletter. ***** Very shortly, LIUFON will be offering a selection of first issue video tapes which the Network has produced. Watch for details in future newsletters. Some of these tapes have never been sold commercially before. ***** Members wishing to write articles for the newsletter or the journal, please feel free to submit them for publication. If found acceptable, they will be published for publication. ***** Operation Long Island Skywatch will be resuming in April and will be concentrating on new areas along the North and South Shores. Watch for details. ***** Remember keep watching the sky !!!!! ***** 30.

MEMBERSHIP CORNER:

MEMBERSHIP MEETING: The last membership meeting was held on December 27th, 1991 at the South Country Library in Bellport Village. The film that was shown was the "Face On Mars" which featured Dr. Robert Hoagland reporting on his discoveries concerning the Martian Face and Pyramids. The attendance was excellent and so was the enthusiasm by the audience over the amazing information delivered during the taped program. There will be a repeat performance of this film during the coming year for those members who missed it.

FUTURE MEMBERSHIP MEETING SCHEDULE:

JANUARY 31, 1992: Starting at 6:30 P.M. at the South Country Library, the Network will present a one hour video dealing with the topic of U.F.O. Abductions. This part of the meeting will be open to the membership, their guests and the general public. Please be advised that immediately after the presentation, there will be a special slide presentation for members only ! All non members will be asked to leave during this presentation which will last one hour. This presentation is only open to members who are in good standing who have their dues up to date. If you are in arrears or have not paid for your renewal, you will not be entitled to participate. Attendance will be checked against the master membership list, those members not in good standing will be asked to leave.

FEBRUARY 28th, 1992; The February meeting will be held in the South Country Library in Bellport Village at 6:30 P.M. that Friday. The featured presentation will deal with the topic of the Bermuda triangle and will feature a full length film on the mystery of the Bermuda Triangle. The meeting will be opened to all members, their guests and the general public.

MARCH 26th, 1992: This meeting will be held at the South Country Library in Bellport Village on a THURSDAY evening beginning at 6:30 P.M.. The featured presentation will be the new slide program dealing with the history of the U.F.O. Phenomenon which will be presented to the membership at this meeting. Again, it is opened to all members, their guests and the general public.

COMING EVENTS:

LIUFON hopes to have for the April meeting a special presentation on the results of our 1991 case investigations. This will be both a slide and visual aid presentation on the year end results of 1991's investigation here on the Island. Future meetings will have topics on Hypnotic Regression, the Pyramids, the Roswell U.F.O. Crash Case and many important films dealing with the subject of U.F.O.'s. Watch for the coming dates in the newsletter.

SPECIAL ANNOUNCEMENT:

It is with deep regrets that the Board of Directors of LIUFON has had to accept the resignation of Richard Stout as First Vice Chairman of the Network. This is the second time Richard has tendered his resignation this past year. This has been and is due to his continuing health problems which has forced him to resign. On January 12, 1992 a special meeting of the Board was held and Frank Columbo was elected as the new First Vice Chairman of the Network. Owing to his health problems and family business, Richard was offered a voting seat on the Board but declined the position. Mr. Stout will remain as a member of the organization. It is with deep regrets that he has made this decision, but owing to circumstances he was forced to make the decision.

THE NATIONAL AND INTERNATIONAL UFO REVIEW DEC - 91

MOSCOW, RUSSIA: During the May 1991 joint British/Soviet excursion in the MIR Space Station, the publication "National Affairs" reported the Moscow Central Television First Program's Vrenya newscast on May 21, 1991 that the crew observed and video taped a circling UFO near the orbiting platform on May 20th. The broadcast included the video tape of a large phosphorescent object of considerable size hovering around the MIR platform. Cosmonaut, Muso Manarov, who was shooting the film, stated he felt that the object was reflection coming from the Soyuz cargo craft docked at the MIR station. Nonetheless, Vremya's correspondent P. Orlov expressed the government's concern over the appearance of the object and its proximity to the MIR station. Said Orlov in his telecast, "The fact is quite interesting indeed and perhaps, fairly alarming."
("International UFO News Bulletin", July-August 1991, Vol. 2, No 4, Edited by Diane Montrose.)

BUCHAREST, ROMANIA: An unidentified flying object was observed by many residents as it moved back and forth in a regular motion over the Romanian Capitol of Bucharest during the night of May 30-31, 1991. One witness, a journalist for Agence France Presse, described a bright object, probably at an altitude of several thousand feet and clearly visible despite heavy cloud cover. A Romanian Defense official reported that nothing unusual had been observed and suggested that the sighting may have been an optical illusion or a trick of the weather.
("International UFO News Bulletin", July-August 1991, Vol 2, No 4, edited by Diane Montrose.)

FREDRICKSBURG, VIRGINIA: A report received through the auspicious of a confidential source in the FAA which was transmitted to LIUFON's Dick Ruhl indicates major sightings over this Virginian community in the first weeks of November 1991. According to the information, large disc and cigar shaped objects were reported both by military and commercial pilots at high altitudes at incredible speeds. Some of the sightings occurred in daylight and involved close approaches to cruising military and civilian aircraft. One source indicates that the Pentagon inquired of the Washington D.C. FAA control center if they could confirm radar or visual trackings of some of the sightings. Reason stated by the Pentagon was a deep concern over some of the sightings and near collisions with military jets. The source is confidential, yet a reliable contact in the FAA.
(LIUFON ARCHIVES, Hotline Report, date Nov. 11th, 1991.)

PENNSYLVANIA, U.S.A.: Beginning in the month of December, reports emerged which continued during the month and into January of sightings in the North Western part of Pennsylvania and along the New Jersey Border of large brightly illuminated discs and cigar shaped objects appearing in the night sky. Residents of both states have brought this to attention of local news media which broke the stories. Channel 5 news broke one nocturnal sighting of rotating lights which were intercepted by a jet from Mc Guire AFB only to have the pilot report that there was nothing to be seen. The activity continues and reports indicate that it has not died down.
(LIUFON ARCHIVES, Hotline Report, December, 1991)

UFO CRASH/RETRIEVALS: THE INNER SANCTUM

STATUS REPORT VI

By Leonard H. Stringfield

BOOK REVIEW

BOOK REVIEW

Leonard Stringfield has done it again. He has released his latest status report on the continuing research effort he has undertaken in gathering and airing fellow researchers and his own information on alleged UFO Crashes. These are not stories to entertain the children with around the fireplace, but serious research efforts by distinguished renowned investigators into the question of Alien Contact and what does our Government have that they are hiding from the world. Leonard, who is a old hand in the field of UFO Research, began to seriously collect this information as a concerted effort in the seventies. He recounts his first disclosures at a MUFON Conference in Dayton Ohio where he was subject to CIA intimidation in an effort to prevent his first release on UFO Crashes. He recounts his initial contact with the late Dr. Alan Hynek and their mutual efforts to establish credibility to UFO Crash material. After his first disclosures, material and contacts flowed in and he has published recent revelations that astound the research community.

Take some of these cases he reveals:

- 1) The late Dr. Hynek revealed that one of the Gemini missions was aborted early due to being followed by a UFO. Hynek was flown out to the carrier in the Pacific to personally debrief the terrified astronauts.
- 2) The existence of a Top Secret NATO briefing paper in 1962 that was distributed to all member nations establishing the existence of UFOs as interplanetary craft. The paper, drawn up in response to overflights during 1961, was a result of UFO activity that almost caused WWII to break out between NATO and the Warsaw Pact nations due to the fly overs by these objects.
- 3) The existence of another UFO Crash in the late forties at Crompton, N.M. which was discovered by passing motorists who photographed it. The resulting coverup did not hide the fact that days after the incident thousands of UFOs visited the skies over Crompton in the largest mass sightings in history.
- 4) The ongoing research into Kecksburg and Roswell UFO Crashes and the important information uncovered on these two cases. The discovery of Gerald Anderson who may be the last living eyewitness to the Roswell Crash wreckage and bodies.
- 5) The disclosure of a 1941 UFO Crash at Cape Girardeau, Missouri which was investigated by both Ray Fowler and Stringfield. Contacting the last surviving members of a family whose minister father was called out by the Army Air Force to administer last rites to an alien crew, they verify and bring to light this amazing story. If true, it would predate the Roswell incident by six years.
- 6) New light is shed on the South African UFO Crash case of 1990. The recent revelations by Dr. Arman Victorian have revealed the case not to be the suspected hoax it was thought to be.
- 7) Several Soviet Crash retrievals are mentioned of rather important significance, including recovery of actual wreckage.8) The Moriches Bay Report in full is given serious attention and praise.

Leonard Stringfield has written an excellent report. It is a must for the serious researcher and devotee to read. In Len's opinion, the veil has lifted some more and a closer view of the secret has been obtained.

LEONARD H. STRINGFIELD

A BIOGRAPHY OF LEONARD STRINGFIELD:

Leonard Stringfield has become recognized as the leading expert and authority on UFO Crash Retrieval Information in the world. For our readers here is a concise biography of Mr. Stringfield.

Leonard Stringfield was formerly Director of International UFO Research Network from 1953-1957, for the Civilian Research Interplanetary Objects, one of the world's largest organizations at the time. He helped publish their newsletter the "Orbit".

He also worked with the Air Defense Command of the USAF between 1954-1957 and assisted in screening UFO reports for them in Ohio. He assisted the Condon Study Group in screening UFO reports for their scientific study between 1967-1969. In addition, he served as Public Relations Advisor for the now defunct NICAP between 1957-1970. He served on the Board of Directors for MUFON while also acting as a Associate Investigator for the Center for UFO Studies in the 1970s. In 1977, he served as an advisor to Prime Minister Sir Eric Gairy of Grenada, who was petitioning the U.N. to seriously investigate the subject of UFOs.

He was President of the Cincinnati UFO Society in the 1950s where he lives. In 1981, he received the MUFON man of the year award. He worked as Director of Public Relations and Marketing Services for Du Bois Chemicals for 31 years until his retirement. He currently researches and investigates UFO Crash Retrieval Information and publishes periodic updates on his findings. He lives with his wife in retirement in Cincinnati where he bases his research efforts.

UFOs IN THE NEWS:

Channel Five recently rebroadcast the T.V. Special on UFOs for a second time. This was the one which was produced by Henry Winkler with Linda Howe's assistance and devoted much time to various topics ranging from sightings, coverups, abductions and animal mutilations. The public reaction to its first broadcast was excellent which caused Channel Five, Fox Network, to reschedule it (with Linda Howe co-producing it, the film was bound to be superb). Many VCRs were busy that night recording copies for viewers. ***** Tim Beckly plans to publish the complete report on the Moriches Bay Incident in UFO Universe in the foreseeable future watch for it. ***** UFO Magazine has changed it address. For those interested in subscribing the rates are \$21.00 a year for six issues. Write to the new address at: P.O. Box 1053, Sunland, California 91041. ***** A new magazine on the stands is STRANGE MAGAZINE which is published four times a year. It deals with the paranormal and UFOs and features renowned experts on those topics. The reviews of the magazine so far have been excellent. Subscription rates are \$17.95 a year. Write to: Strange Magazine, P.O.Box 2246, Rockville, Md, 20847. It's a good price for good information. ***** UFO activity continues in Gulf Breeze, Florida with reports of renewed sightings occurring down there. Updates of recent sightings indicate that the activity continues with no abatement. ***** John White has announced plans not to hold another conference in New Haven this year. He plans on taking a year off from his recent successful conferences. That is a disappointment to all who have attended his excellent conferences. ***** The media continues to hype the UFO subject with more attention being shown on the topic than ever before. If this trend continues, UFOs may well be as acceptable a subject as Baseball or Football. 30.

THE LONG ISLAND SCENE: DECEMBER 1991.

***** The month of December was a quiet month for LIUFON's dauntless team of investigators. The activity seemed to have died down for the month while Santa prepared for his yearly flight to deliver children's fantasies and joy for beneath the yule tree. ***** Yet in the waning days of 1991 LIUFON was still busy pursuing investigations into U.F.O. phenomenon in the metropolitan area, while reports of U.F.O. activity died down for the moment. ***** In the beginning of December James Lefante was interviewed concerning recent abductions that have occurred to him during the fall months. Periods of missing time and unexplained phenomenon were reported by James to LIUFON Investigators who recorded his reports for further study. James has reported that some of the events that have occurred to him recently are beyond his recall and may require hypnotic regression for further investigation. LIUFON agrees with James, since unlike his earlier reports, he seems to have been instructed by his abductors not to recall what may have happened to him. ***** The Medford Abduction Case is under continuous investigation with more information developing with the family involved. As per agreement with the family, most of the information around this amazing case has been deferred from public comment for the moment. The case is rather involved and appears to involve the whole family. When the time comes to report on the facts on this case, LIUFON will publish a full report in the Journal surrounding this event. ***** The West Islip case reported activity over the Holiday Season with some sort of physical entity appearing in the daughter's bedroom which did an examination on the young woman witness. This was also coupled with a rather strange report surrounding a late night incident which occurred to the young woman subject one night in the middle of December. She reported being summoned from her darkened living room where she had been watching T.V. that night. Alone, she reported some sort of electronic signal like a electronic buzz and a voice instructing her to go out the back door and stand in the backyard. Obeying the voice, she went to the back door and stopped when she saw the backyard was entirely unlit. She remembers standing there for ten minutes and then snapping out of the trance she was in. She does not know if she suffered any missing time or if she did obey the voice and go into the backyard. The signal sounds like the same sound picked up by LIUFON tape recorders in the spring. During a period in June LIUFON placed hidden tape recorders in the subject's bedroom where she was instructed to turn them on when she went to bed. During one night the tape recorder picked up the sounds of some one walking through the subject's bedroom closet, moving clothing and shoes while knocking over some object which made some loud noise. In the next instance, it was picked up by the tape recorder a faint electronic hum which caused the subject to respond verbally in a indiscernible mumble as if on command. ***** The tape was analyzed by Preston Nichols who did some extensive analysis which proved it to be some type of electronic signal which had six different wave lengths which were picked up by oscilograph analysis. It was clearly an artificial sound. ***** LIUFON has a copy of the recording which is still under going tests. It should be noted that many abductees report their abductors using a wand which emits a similar sound during their abductions. If this is a recording of that instrument's electronic emission then it could be a major breakthrough for research. ***** And so December wasn't so inactive at least for LIUFON. 30. *****

MEMBERS ATTENTION !!!

At a future meeting LIUFON will endeavor, with the witness' permission to play that segment of the recording which contains the suspected electronic signal whcih was picked up by hidden tape recorders in the sping of 1991 in the witness' bedroom.

LISTINGS OF PUBLICATIONS BY LEONARD STRINGFIELD

As a special service to our members, LIUFON is listings those publications which are available directly from noted U.F.O. Researcher Leonard Stringfield. A brief description of the article is offered along with their current prices.

- 1) RETRIEVALS OF THE THIRD KIND: A CASE STUDY OF ALLEGED UFOS AND OCCUPANTS IN MILITARY CUSTODY. The first formal research paper presented publicly on the subject of UFO crash/retrievals at the MUFON Symposium, Dayton Ohio, July 1976. Original edition, dated April 1978, was published in the MUFON PROCEEDINGS (1978). Address, MUFON, 103 Oldtowne Road, Seguin, Texas, 78155. If available, price not available.
- 2) RETRIEVALS OF THE THIRD KIND: A CASE STUDY OF ALLEGED UFOS AND OCCUPANTS IN MILITARY CUSTODY. Revised edition, July 1978, word processed copy, 34 pages. Available at author's address. See below. PRICE: \$10.00.
- 3) UFO CRASH/RETRIEVAL SYNDROME, STATUS REPORT II. Published by MUFON: Flexible cover, typeset, illustrations, 37 pages. Available only at MUFON address: 103 Oldtowne Road, Seguin, Texas, 78155. PRICE: USA, \$6.50.
- 4) UFO CRASH/RETRIEVALS: AMASSING THE EVIDENCE: STATUS REPORT III. June 1982; flexible cover, typeset, illustrations, 53 pages. Available from author's address. See below. PRICE: USA \$11.00.
- 5) THE FATAL ENCOUNTER AT FT. DIX-MC GUIRE: A CASE STUDY, STATUS REPORT IV. June 1985. Paper presented at MUFON Symposium, St. Louis, Missouri, 1985. Xeroxed copy, 26 pages. Available at author's address. See below. PRICE: USA \$7.00.
- 6) UFO CRASH/RETRIEVALS: IS THE COVERUP LID LIFTING ? STATUS REPORT V. Published in MUFON UFO JOURNAL, January, 1989, with updated addendum. Xeroxed copy, 23 pages. Available at author's address. See below. PRICE: USA \$ 7.00.
- 7) INSIDE SAUCER POST, 3-0 BLUE. Book privately published, 1957. Review of author's early research and cooperative association with the Air Defense Command Filter Center, using code name, FOX TROT KILO 3-0 BLUE. Flexible Cover, typeset illustrations, 94 pages. Available from author's address. See below. PRICE: USA \$6.00.
- 8) UFO CRASH/RETRIEVALS: THE INNER SANCTUM, STATUS REPORT VI. July 1991; flexible cover, book length, 81,000 words, 142 pages, illustrated. Privately published. Available from author's address. See below. PRICE: USA \$18.50.

Prices include postage and handling. Mailings to Canada, add 50¢ for each item ordered. All foreign orders, payable U.S. funds. International money order or draft on U.S. Bank. Recommend Air Mail outside U.S. territories. Check on price.
